Cross Cultural Exchange Through the Eyes of Students and Teachers

Confucius Institute of the State of Washington

9th Anniversary
Exchange of ideas between Chinese and American students highlighted this CIWA 9th Anniversary celebration. We heard experiences of American students who visited China and Chinese students comparing their system of education after visiting the US. The impact of CIWA’s programs and support is evident. Chinese language classes are flourishing in Washington state and accompanying them, enriching hands-on Chinese cultural experiences. Visiting Chinese teachers from partner schools in China share their culture and language while gaining professional expertise through this wonderful exchange.

This April 23, 2018 CIWA anniversary celebration at the Wing Luke Museum in Seattle’s Chinatown International District included a World Affairs Council Global Classroom teacher program, museum tours, performances by visiting students from Chongqing, and a reception. The event was capped off by a moderated panel of the Nankai Secondary School students from Chongqing and students from Pathfinder K-8 and Mercer International Middle School in Seattle, who traveled to China to visit their partner schools. It was an inspiring evening to mark this milestone.
